

Summer Math Enrichment Camp

St. Raphael Library
June 19th through June 23rd

Mr. Ken Wolford

Learn and grow your math skills through hands on activities!

Students will have an opportunity to learn new skills in Pre-Algebra and Algebra concepts through hands on activities. The students will use science and data to demonstrate how math is used in the real world. Mr. Wolford will work with upcoming 6th and 7th grade students to give them an opportunity to learn enriched math concepts that will be learned in middle school in a fun interactive way.

The sessions will meet Monday-Friday, **June 19th – June 23rd** in the St. Raphael library, from 9:00am-10:30am and 10:30am-12:00pm. The cost is \$200 for the entire week. Checks can be made out to Ken Wolford.

Class size will be limited, so sign up quickly. If there is an overflow of students, a second week may be added in late July. More information will follow if this is the case.

If you are interested, please complete the requested information at the bottom of the page and return it, along with payment, **by May 26th** to Mr. Wolford in room 8.
